Recommendations from last year's monitoring:

Best done with a monitoring map & set of photos of the pins in hand, plus a gps unit with the property's shape file. Also might be a good idea to visit the vernal pools.

3. Monitors:

Rocky Adriance, Jimmy Grogan, Eva Gibavic

4. Describe the monitoring route briefly (also draw on map):

From Eva Gibavic's home we moved clockwise across the S boundary of the open field then N along the W side of the field to the Don Gibavic residence, returning S along the base of the steep slope that occupies the property's western half to Eva's home. From there we went counterclockwise up Old Cave Hill Road along the boundary, looked down on the NW corner ('C' on map), and returned via Old Cave Hill Road.

5. Action Items requiring attention:

The marker in the meadow is always hard to find, easiest in spring. We did not locate it this year.

We did not check on the abandoned motorbike in the forest.
